WELCOME TO THE ROADLOFT COMMUNITY

Congratulations new RoadLofter !
Your new RoadLoft kit, designed by nature and
adventure enthusiasts, will keep you inspired
even in nature.

Following your installation, you will be able to
join the RoadLofters sharing group, an initiative
of the clients and entirely managed by them!

Inspired by nature

Discover new landscapes, be in contact with nature and travel in complete freedom

Our conviction? Living in the moment and discovering
nature contribute to well-being. At the company's core
resides one goal; get you into nature while respecting it.

This is why your set is designed from quality eco-
responsible materials, made with meticulousness by our
team of experts to accompany you on all your
adventures.

We sincerely hope that your RoadLoft set will bring you
more spontaneity and make you travel in complete
freedom.

Now it's up to you to let yourself be inspired by nature
while respecting it!

LIST OF PIECES

2 boxes of the central module and its panels, 2 connecting piece, 10 screws and leveling pads

Kitchen drawers : 1 burner drawer and 1 sink drawer and the central panel

A bench

A bookcase

*Dodge Grand Caravan and Honda Odyssey 2018+ : 3 long below, 4 short on the sides

*Nissan NV200 : 6 short on the sides

A table and a pole

Before you start, you will need:

- A flat screwdriver
- An impact screwdriver (optional)

INSTALLATION STEPS

First assembly of the sections

Upon receipt of your conversion kit, a first assembly is necessary to create your bench seat and your central module.

Since you may decide to keep these sections assembled when storing your kit, these steps may be optional for future installations in your vehicle.

Central module assembly

1. Fix the two casings of the central module together. To do this, lay the two boxes side by side.

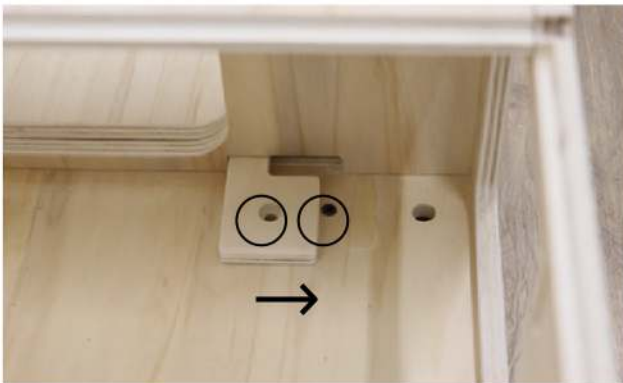

2. Fix the boxes together by affixing the screw on the interior side of the central module. The screw must be inserted in the box having no insert.

Repeat the manipulation for the other side.

3. Insert the connector piece on each side so as to align the hole of the connector piece with that of the casing with a black insert.

4. Install the two screws.

Repeat the steps for the second connector piece.

5. Screw the U-bracket into the center module inserts. Use a screw and a washer per hole.

3. Insert the leveling pads on the center box. Refer to the parts list to identify the number and location of the short and long leveling mounts according to your model of vehicle.

Installation steps

In the car, remove the back seats.

1. Insert the central module into the vehicle and place it in the center of the space.

2. Insert the two kitchen boxes (sink box and burner box) in the fastening system of the central module

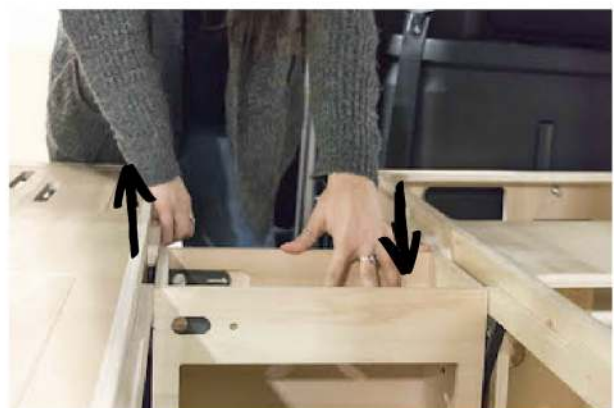

3. Lock the boxes by sliding the drawer locks towards the central module.

4. Insert the bench box into the vehicle.

5. Adjust the bench box position by inserting the library box into the two U-brackets of the bench box and central module).

If necessary, slightly lift the bench box to properly insert the library box .

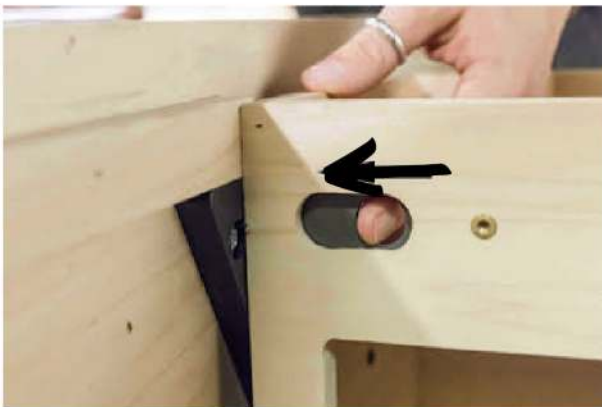

6. Adjust the height of the leveling mount so that the central module is fully supported on the ground.

7. Make sure the library box is properly set up.

All top edges must be at the same level as the table supports. Caution, if the edges are not leveled, adjust the height of the leveling pads of the central module.

8. Lock the library box section in the bench box.

9. Using a flat screwdriver, adjust the leveling mounts on the side of the central module so it is well fixed against the walls of the vehicle so that the conversion kit is secured and won't move.

10. Place the surface panels into the designated places, mattresses and set up the table (see below). Your kit is now installed. If your module emits noise on the road, it is because it's not properly installed. Then review each step. Before hitting the road, read the rest of the recommendations below.

OPENING THE DRAWERS

The drawers have a lock system, preventing them from opening when driving. To open the drawers, press down on the black plastic piece located on the side of the drawer, while pulling the drawer by the handle. Make sure to remove your finger when opening the drawer.

TABLE INSTALLATION

To change from bed to table position, remove the table, then fold the two sections to the sides.

Screw the leg into the table and insert the lower part into the bookcase section. Turn the key to tighten the leg and prevent the table from turning.

RECOMMENDED USE

1. Recommended maximum weight of 220 pounds per person.
2. Always close drawers before sitting on the module.
3. Do not be seated on the bench while opening drawers.
4. Do not exceed the load capacity of the drawers (100lbs).
5. Sit on the mattress and not directly on the module.
6. When installed in the vehicle, make sure that the boxes are blocked by the locks, in order to secure the module.
7. Never drive with your view blocked by the curtains.
8. When uninstalling the module, release the locks before removing the drawers.
9. Always remove your finger from the drawer lock system before opening the drawer.
10. Do not leave your fingers in the openings of the hatches while opening or closing the drawers.
11. Do not lean on the table.
12. Always make sure that the rear drawers have a support (either on the edge of the vehicle or have their tab).
13. To adjust the position of your kit, remove the bookcase and push on the central module. Never pull on your drawers for this maneuver.
14. Let the mattress recover its shape for 48 hours by leaving the zipper open. If it has not regained its shape after 72 hours, take it out of the cover.

MAINTENANCE

Conversion kit: Store in a dry place. Store flat.

Mattress and Curtain Cover: Machine wash gentle cycle in cold water. Hang to dry.

WARRANTY

Visit our website Roadloft.com for any question related to the warranty.

YOUR REVIEW HELPS US

If you would like to help us, we would very much appreciate your feedback on our [Facebook page](#) and our [Google page](#). Thanks in advance! Your opinion is very important to us.

You have questions? Do not hesitate to contact us. It will be our pleasure to discuss with you and help you. We are happy to contribute to your next adventures! We look forward to seeing you on the road!
