15. Assembly of the outdoor table

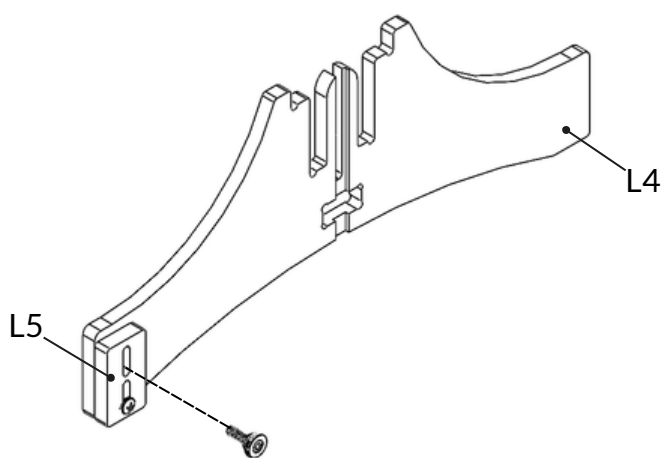

Apply Loctite glue to the screw and insert it into the L4 piece.

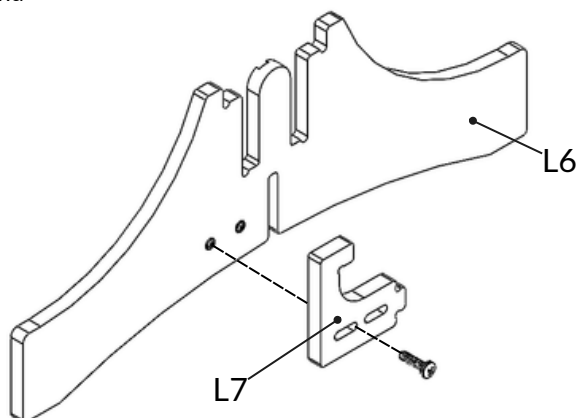

I (1X)

F (1X)

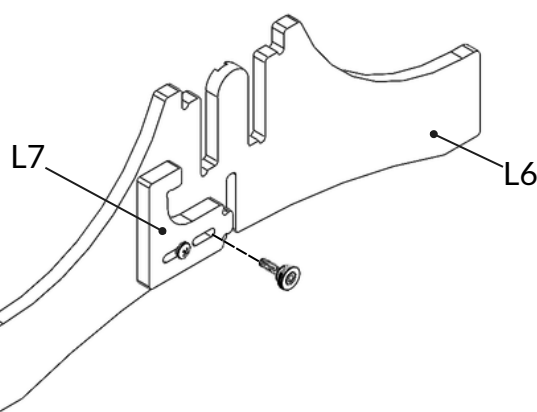

Apply Loctite glue to the screw and insert it into the L6 piece.

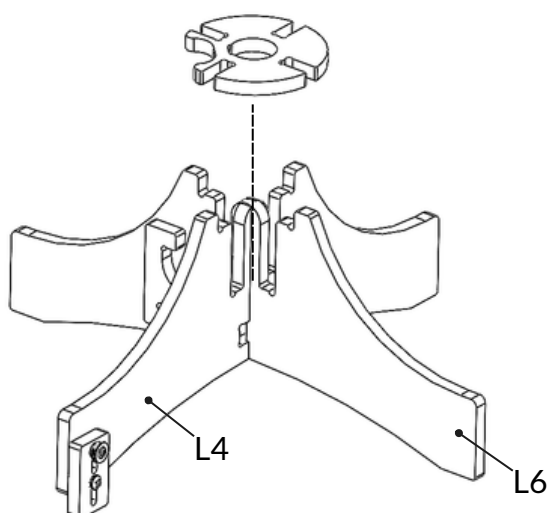

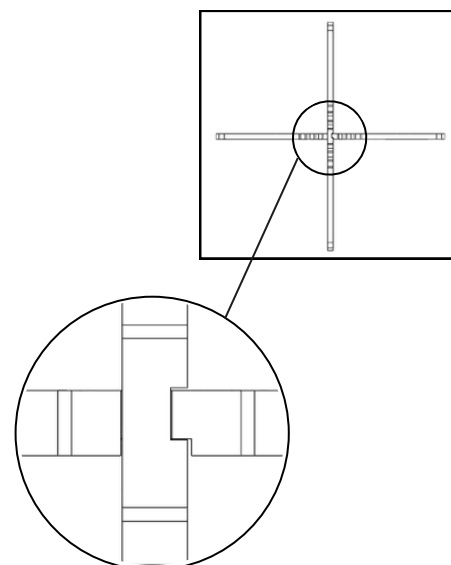

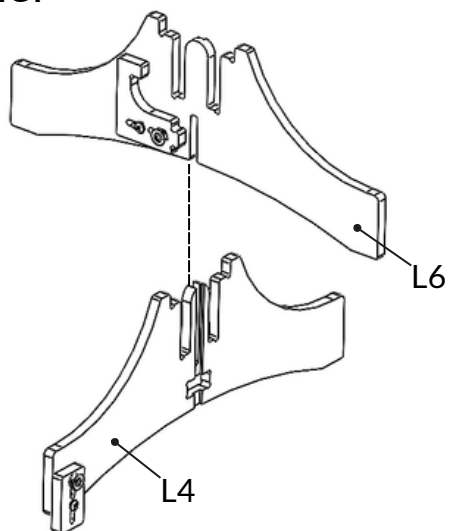

I (1X)

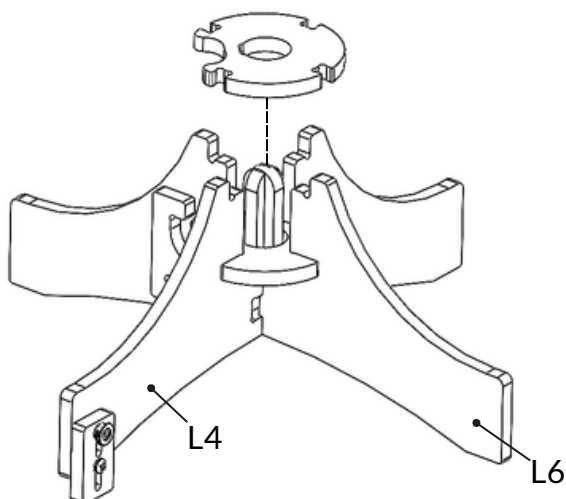

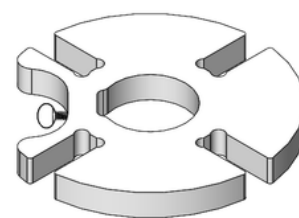

F (1X)

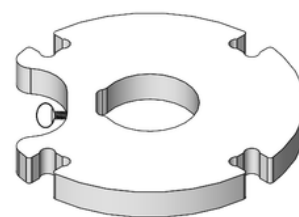

Fit the pieces together

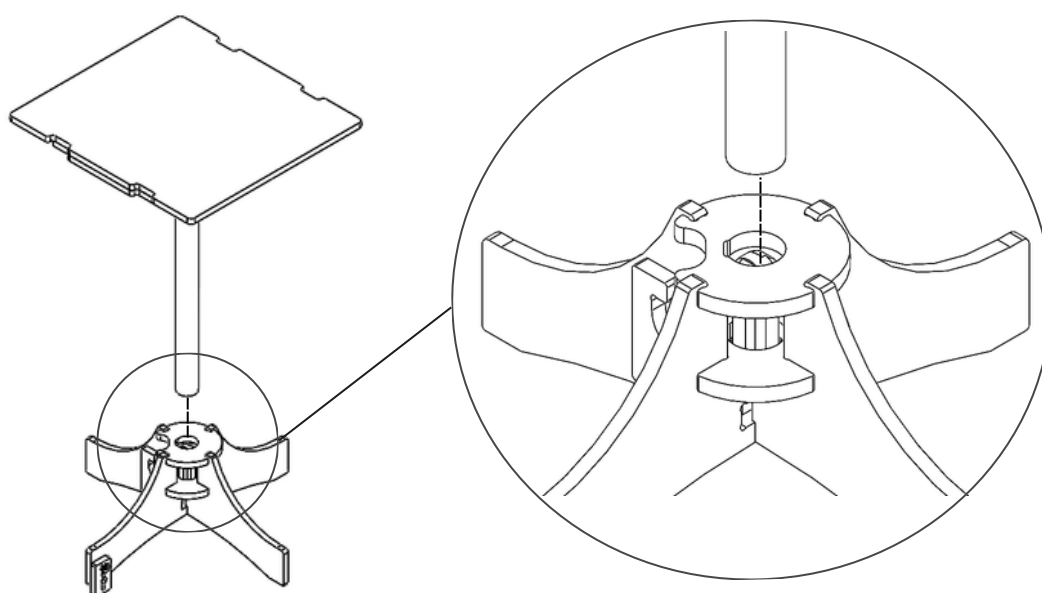

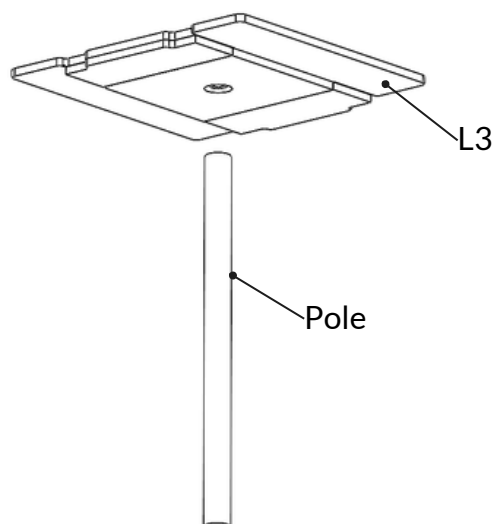

First, place the plastic piece with the largest openings.

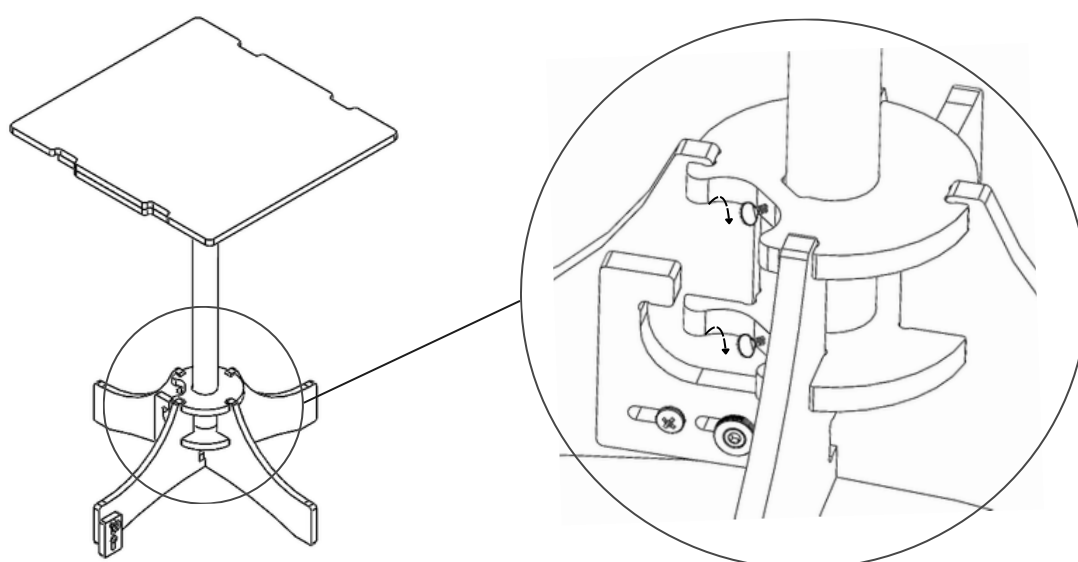

Next, place the plastic piece with the smallest openings.

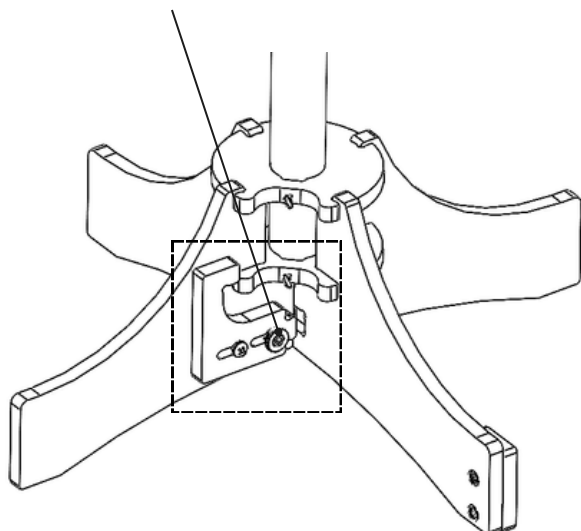

Screw the threaded part of the pole under the front bed panel.

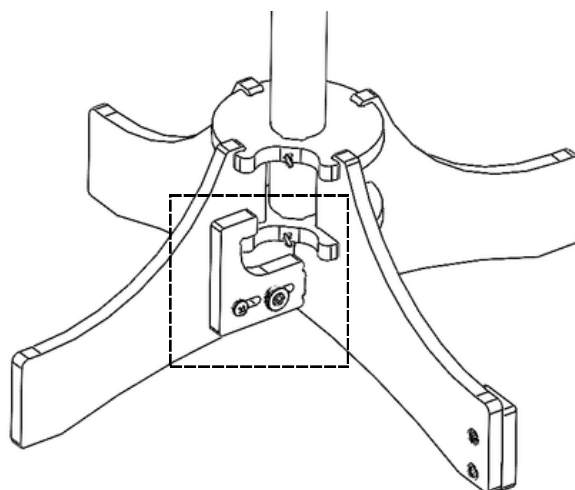

Tighten the two pressure screws to lock the position of the plastic pieces on the pole.

Loosen the wing nut slightly to release the lock.

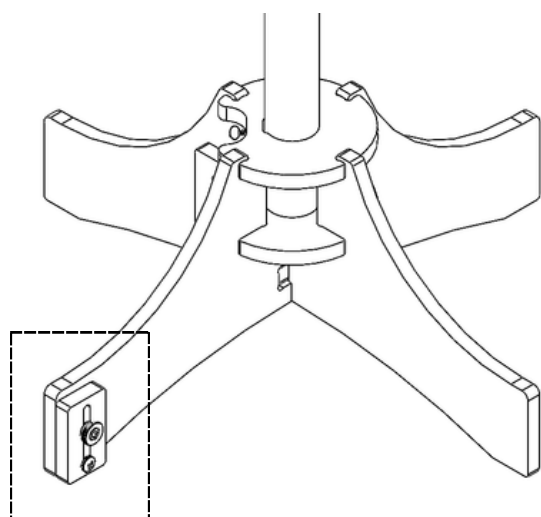

Move the lock towards the table pole and tighten the wing nut to prevent the lock from moving.

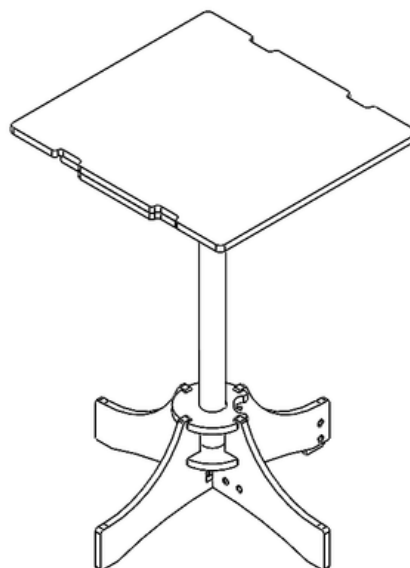

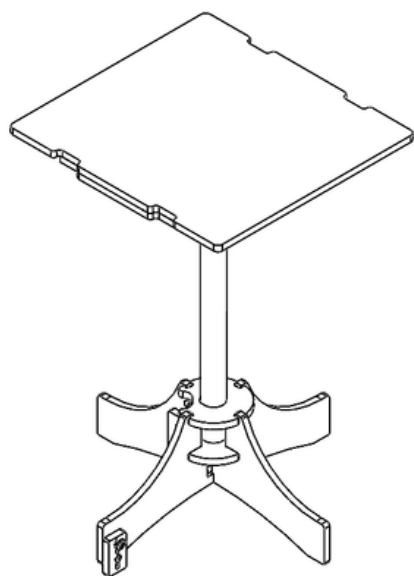

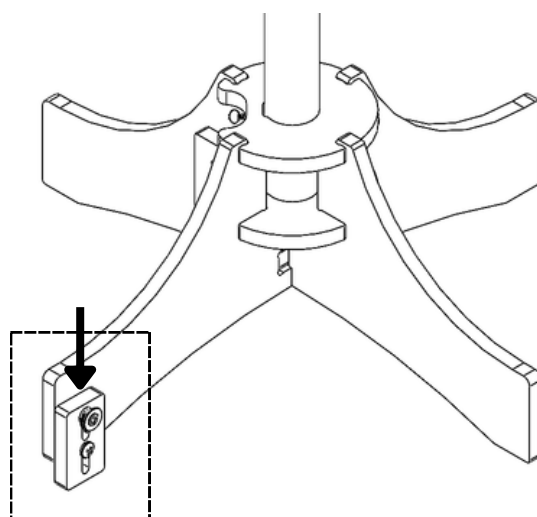

Level the table (if necessary)

Loosen the wing nut slightly to release the block.

Adjust the block to the desired height and tighten the butterfly screw.

User Guide

Consult the mid-size pickup truck kit user guide before installing it in your vehicle.

Your Feedback is Important to Us

If you would like to help us, we would very much appreciate your feedback on our [Facebook page](#) and our [Google page](#). Thanks in advance! Your opinion is very important to us.
